Waiting Dining Contract

Progettare spazi collettivi contemporanei

Design contemporary collective spaces

Midj crea soluzioni d'arredo innovative per le situazioni di socialità del vivere contemporaneo e presenta, per la prima volta, una collezione contract, interamente pensata, progettata e realizzata per gli spazi collettivi, interni ed esterni.

Le competenze tecniche dell'azienda incontrano la creatività di designers di fama internazionale per dare vita a prodotti che uniscono usabilità e gusto estetico, che si distinguono per la scelta di materiali pregiati e di colori di tendenza. Il cuore di ogni progetto Midj è l'approccio artigiano: la cura per i dettagli e le finiture ricercate fanno un importante rappresentante del design italiano.

Nelle pagine che seguono proponiamo una raccolta di immagini che racchiude i progetti più significativi realizzati in tutto il mondo da architetti che hanno scelto la qualità e lo stile squisitamente Made in Italy di Midj.

Midj develops innovative furnishing solutions for contemporary convivial situation and presents, for the first time, a contract collection, entirely thought, designed and realized for collective indoor and outdoor spaces.

Technical competences of the company meet world renowned designers' creativity in order to give life to new products which combine usability and aesthetics, who stand out for materials and trend colors choice. Heart of each Midj project identifies itself with artisanal attitude: details and researched finishes' care make the company an important Italian Design representative. In the following pages we propose an images'collection which lists the most important projects realized all over the worlds by architects who chose quality and "Made in Italy" style offered by Midj.

Cuoio Toscano - Tuscan Hide

I Cuoio Toscano non teme di mostrare i segni lasciati dal tempo che lo rendono un prodotto unico.
Un materiale ricavato dalla pelle di animali che hanno subito un processo denominato concia al vegetale con latami naturali e con tauzio di prodotti biologicamente compatibili per la curatura, che per la rifinitura, è invece che per la lavorazione.
È proprio il passato a oggi definire il suo valore. I segni lasciati dal Cuoio Toscano nascono da una reale caratteristica dello stesso che ne garantisce l'originalità.

Tuscan Hide does not fear to show signs since the oldest give the more unique it becomes.
It is a material derived from animal's leather which suffer a process called "vegetable tanning" with natural tannins and with the help of some products biologically compatible whether for the dyeing or for the finishing.
Any possible imperfection, sign, stain, scratch or smudge is a characteristic which guarantees its originality.
