Design is a wonderful life

Facciamo questo lavoro da una vita e ancora oggi il nostro cuore si riempie di entusiasmo e meraviglia di fronte a un prodotto ben fatto.

Forse è proprio questa l'essenza del nostro modo di intendere il design: un'attitudine e un istinto naturale che ci spingono a coltivare le idee per vederle sbocciare e godere della loro realizzazione. Ogni volta che designer, architetti e clienti scelgono un arredamento Midj, per noi è la conferma che stiamo facendo bene quello che più amiamo fare: progettare. È questa la spinta che ci porta a migliorarci sempre. La nostra mente non si ferma mai, è in continuo movimento alla ricerca di un design autentico, capace di trasformare il quotidiano in un'esperienza sempre più piacevole e funzionale.

Paolo Vernier
Fondatore e Designer

Design is a wonderful life

We have been doing this job for a lifetime and still today our hearts are filled with enthusiasm and marvel at a well-made product.

Perhaps, this is precisely the essence of our way of understanding design: an attitude and a natural instinct that drive us to cultivate ideas in order to see them blossom and to enjoy their realization. Each time designers, architects, and clients choose Midj's products, for us it is proof that we are doing right what we love most: designing. This is the motivation which leads us to always improve. Our mind never stops, it is constantly moving in search of an authentic design, capable of transforming everyday life into an increasingly pleasant and functional experience.

Paolo Vernier
Fondatore e Designer

La capacità di risolvere ostacoli tecnici con soluzioni innovative e raffinate.

L'applicazione efficace della digitalizzazione nella gestione di una sofisticata produzione industriale. Questa è l'intelligenza dei nostri nuovi artigiani, che impiegando la tecnologia si dedicano ad ogni prodotto con cura maniacale, come se fosse un pezzo unico. Ogni creazione nasce dalla fusione di tecniche tradizionali e innovazione moderna, dando vita a prodotti che incarnano l'essenza dell'artigianato italiano.

Artisanal intelligence

The ability to overcome technical challenges with innovative and refined solutions.

The effective application of digitalization in managing a sophisticated industrial production. This is the intelligence of our new artisans, who, by leveraging technology, dedicate themselves to each product with obsessive care, as if it were a unique piece. Every creation is born from the fusion of traditional techniques and modern innovation, giving life to products that embody the essence of Italian craftsmanship.

Intelligenza artigianale

Amiamo il confronto con designer e progettisti da ogni parte del mondo,
perché lo scambio di idee e intuizioni accende in noi quell'emozione che solo la nascita di un nuovo progetto porta con sé. Tutti diversi per storie, competenze ed esperienze ma accomunati da passione e talento. Siamo una grande famiglia italiana dove ognuno è fondamentale per contribuire al risultato. Quando si accende la scintilla e l'idea comincia a prendere forma, c'è qualcosa di elettrizzante nel lavorare insieme per trovare la soluzione giusta, quella capace di portare bellezza e funzionalità, negli spazi del vivere contemporaneo.

At international designers' side
We love to collaborate with designers and architects from all over the world,
because the exchange of ideas and insights ignites in us that emotion that only the birth of a new project brings with it. All different in stories, skills and experiences, but united by passion and talent. We are a large Italian family where everyone is essential to contribute to the result. When the spark is lit and the idea begins to take shape, there is something electrifying in working together in order to find the right solution, the one capable of bringing beauty and functionality to the spaces of contemporary living.

Sgabelli

Stools
