SENSITIVITY, POETRY AND EMOTION: A COLLECTIVE EMBRACE

What guides Saba is the idea of happiness. By shifting the observation from the product to the people, Saba designs with the aim of improving the quality of life and ultimately make people happier. This is how the brand concentrates its creative effort, helping consumers cultivate long lasting connections with products, as timelessness becomes essential.

SABA HQ / **SAN MARTINO DI LUPARI**

ABOUT THE BRAND

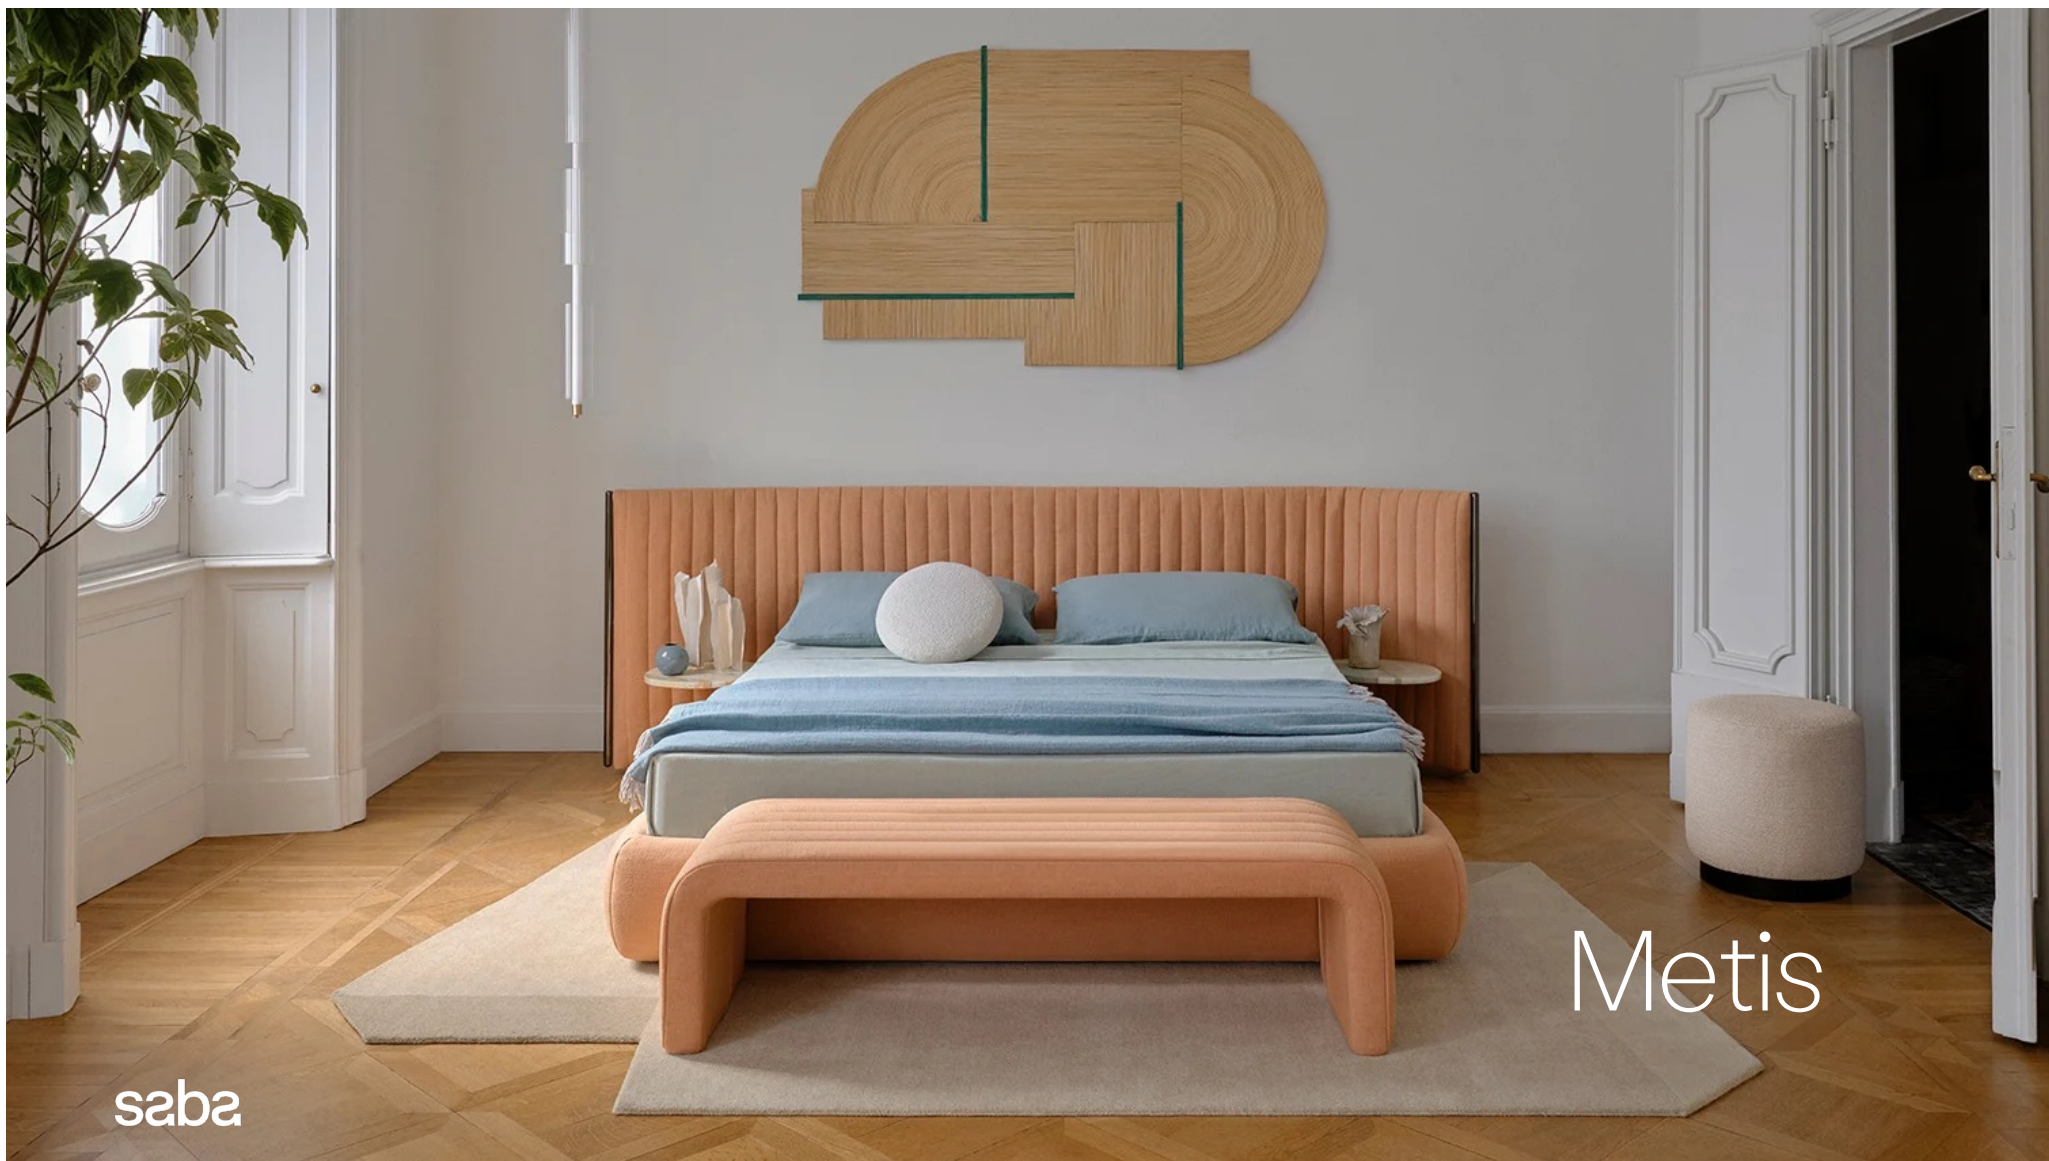

"A collective embrace" is not just a slogan, but a real statement, an existential approach that has become an entrepreneurial adventure. Saba is an all-round feminine brand: it's one of the few companies in the sector to be guided by a woman entrepreneur who has led the company to success by means of a keen creative sensibility and a humanistic approach. Saba's mission is to combine the functional aspects of design with the language of poetry and emotion.
